Good morning,

For your review, attached is a revised response to PEER. The letter now responds to both incoming letters from PEER (November 25th - Anvil letter and March 24th - Permanone letter).

This language was pulled from the recent Q&As.

Thank you,

Carissa

I think there is new activity on the PFAS actives and inerts. Catherine might have the latest. Also, we should mention the December release of information too.
